

House Sitter Form

Fill this form out and provide to the person who will be checking on your home. The should be checked on every day if possible, but no less then every other day.

The house sitter needs to check to make sure power is on at the home, that the sump pump is operational, that the heating system is operational and that there are no broken or frozen pipes. Frozen pipes are detected by the lack of water flow from any faucet.

If there is a water or smoke emergency at our home, Please call Stanley Steemer at 1-800-STEEMER for an immediate response.

For a Fire call 911 first and then 1-800-STEEMER
